SAYS DANES SOLVE H.C. OF L. PROBLEM

Minister to Denmark Urges Americans to Follow Their Example.

New York, April 22.—"If intensive farming, coupled with co-operation, could be carried on in any state of the Union with half the scientific application of the Danes, there would be no such problem in this country today as the high cost of living," said Dr. Maurice Francis Egan, American minister to Denmark, in a speech before the H. C. of L. Middleman's Demands.

"By co-operation the Danes have brought under control the exorbitant demands of the middleman. The state of Denmark is the worst of Europe, and the soil of the country is by nature almost the worst, and yet those of the country have given them by nature the advantages, farmers have solved the Danish problem scientifically by tackling their 'venture' locally.

"I venture to say that if the abandoned farms in Massachusetts alone could be put under the direction of the Danes, they could be made to yield food enough to supply the whole of New England.

Make Small Farms Produce. "Nowhere else have the possibilities of the small farmer been developed as in Denmark. A family there can make a very good living out of 20 acres. These would be devoted to raising cows and peas, and perhaps some chickens. There would probably be half a dozen cows.

"Nearly every family in Denmark has a representative in the United States," said Egan, "and this nation is the best beloved of any outside of that interesting little country."

READ BIBLE AND SING
 MEMBERS OF CULT THINK THAT THEIR GIRL LEADER IS SUPERHUMAN.

Mt. Airy, Ga., April 22.—Led by Ida Hawkins, a flaxen-haired girl of 20, a party of evangelists—two women and three men—are causing a religious upheaval here. Most of their time is spent in reading the Bible and singing. So zealous are devotees that they are trying to divorce their wives of other faiths, give their children away and devote their lives to the new belief.

The evangelists believe that their girl leader is superhuman and immune from all ills of the flesh. They say that her face shines like an angel's. They think that the end of time is near and prophesy that all members of their sect will be saved.

LINER CARRIES MARINES
 MORRO CASTLE, AT REQUEST OF U. S. GOVERNMENT, PRESSED INTO SERVICE.

New York, April 22.—At the urgent request of the war department the Ward liner Morro Castle, which was scheduled to sail with passengers Wednesday for Vera Cruz, sailed Tuesday night for Philadelphia, where she will be taken charge of by the government and used as a transport for a detachment of marines ordered from League Island to embark for Tampico. The steamship company, upon receiving instructions, immediately put an army of longshoremen to work coaling the liner and stowing away stores for the use of the officers and crew. Supplies for the marines will be shipped at Philadelphia.

WIFEBEATERS, BEWARE!
 CONVICTED HUSBANDS WILL BE FORCED TO HARDEST AND HOTTEST KIND OF WORK.

New York, April 22.—Dr. Katherine B. Davis, commissioner of correction, is determined to make all men sent to Blackwell's island on charges of beating or deserting their wives do the hardest and hottest kind of work. Having no work hard or hot enough in her own department, Miss Davis sent a letter to Bridge Commissioner Kracke asking him if it would not be possible to set the 175 wifebeaters to work in the city's plant for making concrete road blocks used to pave the city's bridges.

THROWS OUT OLD ENGLISH STATUTE

High Court Decides Writ of Coram Nobis May Not Be Used in Ohio.

D. A. DONOVA,
 Columbus, April 22.—Respondent.

premise court esta. 22.—The Ohio supreme court this day decided an interesting case that the old writ of coram nobis may not be used in Ohio. The decision will be of heard with much interest in all of the states of the United States because the present instance is the first, insofar as is known here, where any effort has been made to appeal to the old English rules of practice to influence the courts of the United States. Under a writ of coram nobis in English procedure a prisoner who has entered upon his sentence may have his case reopened and tried over again. Attorneys for two brothers down in Adams county, who had been convicted of murder, sought to test the ancient English practice in the hope of saving their clients. The Adams county courts upheld the vitality of the coram nobis, but the supreme court now rules that the principle cannot be applied to the rules of practice in Ohio.

In a decision in an Ashland county case the supreme court holds the common law made on Sunday are valid and binding. Accordingly, Henry Fry, an Ashland county farmer, must pay to two real estate agents the sum of \$500 as a commission for finding a purchaser for his farm. Because the contract was made on Sunday Fry held that it was unlawful and that he could not be compelled to pay.

Causes 76 Arrests.
 Since the middle of January Chief Examiner Otto M. Elzeman of the stationary engineers' department has caused 76 arrests for alleged violations of the license law and has obtained convictions in all of the cases but three, which are still pending. In one instance he had filed a perjury charge against a Ashland man who was given a license to operate a steam boiler in 1912 upon representations that he was 21 years of age. It is held that he is not yet 21 and his license has been accordingly revoked.

Case Is Peculiar One.
 Much gossip is being indulged in here because of the arrest at Findlay of State Fire Marshal Defenbaugh and two of his deputies on the charge of malicious destruction of property. The case is a peculiar one and its developments will be important from the standpoint of the state fire marshal's office and its authority under the law.

Mr. J. I. Houson of Portsmouth, Vincent Zmunt of Cleveland, William Green of Coshocton. The representatives who have tossed their headpieces into the ring for congress are Percy Tetlow of Columbiana, Cyrus B. Winters of Erie, M. A. Warnes of Holmes, W. D. Fulton of Licking, W. B. Kilpatrick of Trumbull and John G. Cooper of Mahoning. All are Democrats except Tetlow and Cooper, who are Republicans.

Ohio Won't Be Caught Napping.
 G. L. Wheeler, traveling passenger agent of the Toledo & Ohio Central railroad, has been engaged by Adit. Gen. George H. Wood to map out routes for each Ohio regiment and company of the National Guard from home stations to any one of several points of rendezvous where it might be deemed necessary to mobilize troops if a call for them comes from the president. Wheeler will handle the transportation arrangements if war is declared. Although he is not officially on the job, unofficially he is and has all his routing outlined. If a call comes troops can be rushed at mobilization points without delay. Wheeler has also made the necessary preliminary arrangements for getting trains. Ohio will not be caught napping if troops are called for.

Reports on Toledo.
 In a report on Toledo filed with the state bureau of accounting Wednesday, Examiner John E. Diemer says that the local officials expended nearly \$11,000 contrary to law. They did this by making purchases in excess of \$500 without calling for bids. Nine employees of the city were found to be charging the city for telephones in their residences. They must stop this practice and must reimburse the city for what it paid for the telephones. The examiner says that little attention has been paid to findings for recovery in preceding reports.
